

Modernisation RSK 50-500-50 and RSK 100-1000-50 should include

- Computer controls for resonant test systems,
- Modernisation high voltage reactors RKE,
- Regulating transformers,
- PD package consisting of PD detector , measuring impedance ,calibrator, High-Precision $\tan \delta$ / power factor measuring instrument with a set of cables.

The offer also should includes

- Installation,
- Commissioning,
- Training,
- Calibration of the AC measuring system issued by the Accreditation Laboratory.
- Calibration of the PD measuring instrument issued by the Accreditation Laboratory.
